Kappoore[H], Karippal P.O, 670581 Kannur District, Kerala, India

## CAREER OBJECTIVES

- As a B.Tech CSE student with a foundation in software development, I am eager to explore and contribute to the tech industry. I have a keen interest in app development, demonstrated by completing a project using flutter, a platform for creating applications.
- I am also an UI/UX designer seeking to leverage my creative skills and user-centric approach to design intuitive and visually appealing digital experiences.

## SKILLS

- Python, Flutter, Firebase, Figma, Spline
- Front-end development, App development, NLP(Natural Language Processing), UI/UX designing

## POSITIONS OF RESPONSIBILITIES

**IEEE SB SJCET PALAI**: *EC Coordinator*      May 2024 - Present
- Oversaw the club's social media presence on Instagram and LinkedIn, creating and scheduling content to engage and grow the audience.

**IEEE SB SJCET PALAI**: *Designer*      Jun 2023 - May 2024
- Created visually appealing posters and graphics for event promotion across various platforms, enhancing event visibility and engagement.

**DSC SJCET**: *Design Lead*      Sep 2023 – Jun 2024
- Led a team of designers, delegating tasks, providing feedback, and ensuring high-quality outputs for all club-related projects.

**CSI SJCET**: *Design Co-lead*      Nov 2023 – July 2023
- Co-led the design team, collaborating closely with the lead to manage projects and ensure consistent quality in all deliverables.

## EDUCATION

**St, Joseph's College of Engineering and Technology** || Kerala, India
    *B.Tech Computer Science and Engineering*
**Oxford English School**|| Kerala, India
    *Higher Secondary*
**Oxford English School** || Kerala, India
    *High School*

## PROJECTS

**COMMUNEHUB**:
*Overview:*
- CommuneHub serves as a centralized platform, seamlessly integrating all facets of college life into one accessible space. Through intuitive design and innovative features, the app enhances student experiences by facilitating effortless event discovery, registration, and community engagement.

*Technology Stack:*
- Flutter
- Python
- Firebase
